

CORPORATE OUTINGS AND EVENTS

The John Webster Golf Academy at The Breakers Palm Beach offers a wide variety of options for groups of all sizes, from intimate gatherings to large corporate events. Our programs can be customized for instruction and for entertainment. Use our team of world-class instructors for video analysis, club fitting, on-course instruction or simply as a pre-round warm-up or trick-shot routine.

Director of Instruction, John Webster, has implemented golf instruction into hundreds of corporate events and hosted clinics with such greats as Gary Player, Hal Sutton and Zach Johnson. John and the Academy staff will customize the best program possible to fit the needs of your group and provide a lasting experience for all participants.

PRE-ROUND WARM-UP

Academy instructors will walk the driving range and putting green, giving your guests quick tips and assistance as they prepare and warm up for your golf outing. This form of brief instruction adds to the day's golf experience, particularly for those novice golfers who would benefit from the added encouragement and advice.

BEGINNERS CLINIC

A great way to decompress after a day of meetings. Introduce the game to those who have never played, or give the novice golfer a chance to pick up a few pointers. This can also be the opportunity to prepare a group for a day's outing in a more personalized atmosphere than the pre-round warm-up.

BASIC FUNDAMENTALS CLINIC

This clinic can be personalized or made game-specific. Choose between full swing, short game, or a combination of both to suit your needs. A lower student-to-teacher ratio will guarantee more personal instruction for each guest. This clinic may run one, two, or three hours, depending on your desired format.

VIDEO CLINIC

Nothing is more beneficial than viewing your own form while receiving a comprehensive analysis from our highly skilled team of golf professionals. Comparisons will be made to the games of some of golf's top players. Clinics include video instruction for the most personalized experience. Lower student-to-teacher ratios are necessary for this format.

ON-COURSE VIDEO ANALYSIS

The most unique gift you can offer. Allow us to videotape your guests during the day's event. Our Academy instructors will then analyze each person's swing with comparisons and voice-over instruction. This analysis will be e-mailed to your guests as a reminder of their day's experience and serve as a tool for game improvement.

ON-COURSE PLAYING INSTRUCTION

If you are looking to liven up a round of golf, or for guidance for the novice golfer, include our Academy instructors. Your guests will have the opportunity to learn course management, trouble shots, and green reading — a variety of experiences that can only be learned by playing with an experienced professional.

CLUB FITTING

John Webster is a member of the Titleist® Leadership Advisory Staff, and one of only four certified Titleist® Prominent Fitters. We are fortunate to have one of the few Titleist® Performance Monitors in the country, with which we can custom fit each and every club in the player's bag. Custom club fitting is a great addition to any day as a gift or special prize for your guests.

TRICK-SHOT ROUTINE

We are very fortunate to have Kevin Compare as part of our team. Kevin's trick-shot routine has gained worldwide recognition and he performs for more than 40 corporate functions every season. Kevin's routine can be used as entertainment prior to a day's event or implemented into a clinic format.

COMPETITIONS

Competitions and games always add a bit of fun and excitement to a day's event. Include chipping, pitching or putting competitions in your group's event as a chance to award additional gifts or prizes.

IN-HOUSE VIDEO

Academy instructors bring the course to you. Video analysis is brought indoors into conference rooms or ballrooms. Guests hit into nets while our instructors videotape, analyze and even e-mail lessons to your guests or clients.

Corporate and group clinic costs are determined by the number of students, instructors, and length of time.

For more information, or to schedule lessons or clinics, please contact the John Webster Golf Academy at (561) 659-8474, press 8474 from any in-house telephone, or visit www.thebreakers.com.
